Multimedia Prize Paper Award

The Multimedia Prize Paper Award is an annual award for an original paper in the field of multimedia published in the *IEEE Transactions on Multimedia* in the previous two calendar years.   Authors of a single paper cannot receive the Multimedia Prize Paper Award in two consecutive years. The prize shall be a plaque and an honorarium of up to $500 per author. The total honorarium is not to exceed $1000. In the event that there are more than two authors, the maximum prize shall be divided equally among all authors and each shall receive a plaque. The basis for judging is the composite of: originality, utility, timeliness, and clarity of presentation. Under normal circumstances, the Multimedia Prize Paper Award will be presented annually at the International Conference on Multimedia and Expo (ICME) by the General Chair of the conference, in the name of the four sponsoring societies. An award may not be given if a paper of high quality is not uncovered.

Award Recipients

2005

Tien-Tsin Wong, Chi-Wing Fu, Pheng-Arm Heng and Chi-Sing Leung for the paper entitled, "The Plenoptic Illumination Function," published in the *IEEE Transactions on Multimedia*, Volume 4, Number 3, pages 361-371, September 2002.

2004

Kunio Kashino, Takayuki Kurozumi, and Hiroshi Murase for the paper entitled, "A Quick Search Method for Audio and Video Signals based on Histogram Pruning," published in the *IEEE Transactions on Multimedia*, Volume 5, Number 3, pages 348-357, September 2003.
